

## Job description

<b>Job title</b>	Senior Production Technician
<b>PBL Directorate</b>	Production
<b>Pay band</b>	Career Level 5
<b>Responsible to</b>	Production Supervisor
<b>Base/location</b>	Porton
<b>Hours/sessions per week</b>	37.5
<b>Job type</b>	Permanent

### INTRODUCTION

Porton Biopharma, Porton Down has approximately 300 staff, performing a range of process and analytical development, production, quality control and quality assurance roles associated with the development and manufacture of biopharmaceuticals.

The department carries out the manufacture of Erwinase and Anthrax Vaccine, as well as contract manufacturing projects.

### JOB SUMMARY

PPC Zones 1-4 is dedicated to the manufacture of Erwinase within two manufacturing sub units the Therapeutics Protein Unit (TPU) and Product Finishing Unit (PFU) both units are GMP manufacturing facilities. TPU performs downstream purification of the therapeutic products and PFU performs aseptic processing and final fill of the product. The post holder will report to the TPU Supervisor.

This GMP post is part of the team within the Pharmaceutical Production Centre responsible for duties including media and equipment preparation, assisting with purification and formulation of Erwinase DS, sterile filtration, and aseptic processing. The team is responsible for the production of pharmaceutical products, preparation of components and the operation of production equipment. Day to day tasks also include maintaining the facility via specialist cleaning procedures and monitoring environmental conditions within a cleanroom environment.

### Communication and key working relationships

#### Internal

- Manufacturing, Project Management, Quality, QC, Safety, Validation, HR, Finance, Emcor, Facilities Management.

## External

- Contractors, Suppliers and Consultants.

## **MAIN DUTIES AND RESPONSIBILITIES**

- Support junior staff in their activities and ensure they are adequately trained in all operational processes required.
- Be responsible to the Unit Supervisor for the day to day operations of the Unit and, if required, to deputise in their absence.
- Undertake all work in accordance with the Code of Safety Practice, Quality System and all other regulatory requirements.
- Follow all Procedures, Policies, Rules, Regulations and Guidelines for all activities to ensure products meet the required standard.
- Generate documentation with regard to risk assessments and cGMP to ensure compliance of the Unit with all necessary regulations.
- Complete documentation and records accurately and to a high standard.
- Work to cGMP ensuring the unit is maintained in a compliant state following Standard Operating Procedures (SOP's) and codes of practice. Keep updated on new rules and regulations.
- Maintain production areas to the required standard using defined cleaning procedures.
- Perform and record environmental monitoring in cGMP areas in accordance with documented procedures. Take waters samples and complete relevant documentation. Monitor and record air pressures and hot and cold facility temperatures.
- Analyse information and make decisions based on assessment.
- Execute Validation Protocols on equipment.
- Perform a wide range of routine and some non-routine technical procedures and understand the rationale behind the procedures and practices.
- Maintain and use a variety of laboratory equipment.

## **Other**

The above is only an outline of the tasks, responsibilities and outcomes required of the role. You will carry out any other duties as may reasonably be required by the directorate.

The job description and person specification may be reviewed on an ongoing basis in accordance with the changing needs of the organisation.

## **Professional development**

You should pursue a program of continuous professional development in accordance with any relevant professional registration or statutory requirements, while maintaining appropriate awareness of service provider requirements.
