

Job description

Job title	Quality Compliance Officer
Directorate	Quality
Career Level	3
Responsible to	Product Quality Manager

INTRODUCTION

Porton Biopharma Ltd, Porton Down is a medium sized company performing a range of production, quality and development roles within pharmaceutical production, process and analytical development, quality control and quality assurance. The Company carries out the manufacture of Erwinase[®] and Anthrax Vaccine as well as contract manufacturing projects.

The position is based in the QA Compliance Team where a number of key activities are performed.

These include the management of the non-conformance and CAPA systems to support the manufacturing and testing of pharmaceutical products to GMP, the management of change control and risk management systems, the management for the internal and supplier audit management programmes, the management of the product review process the management of QA environmental compliance and the provision of QA oversight of manufacturing and testing activities.

JOB SUMMARY

The post holder will support an In Process Team (IPT) assigned to a particular manufacturing process. The post holder will support the team by performing all duties associated with the release of pharmaceutical products in a compliant and timely fashion.

Communication and key working relationships

Internal

- Development and Production, Quality, Safety, Validation, Primary Engineering Contractor, Facilities Management, Engineering and Research.

External

- Commercial customers, consultants, regulatory authorities, suppliers, testing laboratories.

MAIN DUTIES AND RESPONSIBILITIES

1. To support the co-ordination and planning of the IPT workload, ensuring Quality matters are considered and acted upon in a compliant fashion.
2. To actively participate in Quality investigations, change controls and risk assessments associated with the IPT to ensure Quality considerations are taken into account.
3. To facilitate and lead structured investigations using recognised models such as “5 Whys” and “FMEA”.
4. To perform the review and approval of a number of key documents associated to the IPT including but not limited to: validation, SOPs, change controls, investigations, risk assessments, pre manufacturing checks, facility release.
5. To perform review of batch manufacturing records and release relevant material for the next stage of manufacture.
6. To provide appropriate QA oversight of manufacturing and testing processes within the IPT to support the business (including occasional out of hours).
7. To participate in the data gathering/review for the quarterly trending reports and annual PQR for the related stage of manufacture
8. To provide training and coaching to more junior members of the team and to staff from other departments in order to promote a quality culture.
9. To promote and enforce data integrity compliance within the IPT and across PBL.
10. If relevant to the specific IPT, to provide review and approval support to EM investigations, smoke visualisation studies, product complaint investigations.
11. To liaise with customers, consultants and contractors as required.
12. To escalate relevant issues to line management and/or to the QP.
13. To provide KPI reports measuring the performance of the team.
14. To undertake relevant training.
15. To undertake work in accordance with the PBL Health and Safety policies and procedures and to work within any Quality Systems that are applicable to the site.
16. To comply with PBL policies and procedures and core values and behaviours.

Other

The above is only an outline of the tasks, responsibilities and outcomes required of the role. You will carry out any other duties as may reasonably be required by the directorate.

The job description and person specification may be reviewed on an ongoing basis in accordance with the changing needs of the organisation.

Professional development

You should pursue a programme of continuous professional development in accordance with any relevant professional registration or statutory requirements, while maintaining appropriate awareness of service provider requirements.
