

Job description

Job title	QMS Documentation Controller and GxP Archivist (12 Month FTC)
Division	Quality
Career Level	5
Responsible to	QA Document Control Leader

INTRODUCTION

Porton Biopharma Ltd, Porton Down is a medium sized company performing a range of production, quality and development roles within pharmaceutical production, process and analytical development, quality control and quality assurance. The Company carries out the manufacture of Erwinase[®] and Anthrax Vaccine as well as contract manufacturing projects.

Quality Assurance – Documentation

Unambiguous, clear documentation is an essential part of the Quality Management System. It prevents, for example, errors from spoken communication, provides clear instructions and therefore ensures the quality and integrity of the work performed and the resulting data with resultant records providing a history of the work performed. To support this, staff within QA Documentation provide a variety of Document Control functions / services which include the document creation, formatting, scanning and controlled distribution of PBL documents. In addition; the department is also responsible for managing the sites Change Control system (managing the review process for critical changes made), the Quality Risk Assessment system (reviewing and mitigating risks to product) and managing the provision of the Archive Service. (long term retention of documents and records).

Quality Assurance – Archive Service

Document Control includes the requirement for long term retention of 'Documents' ('Records' and 'Instructions'). Documents are catalogued and stored within purpose built Archive Facilities, which are monitored and maintained to prevent degradation of the Documents. Document interactions (retrieval, provision of copies, disposal etc.) are overseen and managed by the Archive Service.

JOB SUMMARY

- To control the input and subsequent tracking of documents (including identification, filing, return and disposal of records) using an appropriate tracking system
- To assist in the management, distribution and control of Quality Documentation
